The RAoA is proud to bring you a

## "Hand Reflexology Masterclass" Webinar

(via Zoom) with David Wayte from Jubilee College UK

<https://reflexology.org.au/hand-info>

**Some Reflexology courses include Hand Reflexology** and some don't. Those that do often don't give enough time to this wonderful aspect of Reflexology, so this course has been designed to meet the need of those wanting to expand their skills and widen their ability.

**This Masterclass** will enable you to be a specialist in Hand Reflexology. It will give you additional skills to treat a wider range of clients, and be more proficient in working with different conditions.

**There are many clients who find Hand Reflexology more beneficial** than Foot Reflexology, including the elderly, the bereaved, terminally ill clients, and bed-bound clients. Additionally, stress and emotional disorders respond particularly well to Hand Reflexology, together with it being a brilliant tool for 'self-help', whether this is for your own use or as aftercare you have given to your client to do between treatments.

**In this Hand Reflexology masterclass we will be looking at:**

- How to deliver the best treatment.
- Perfecting techniques suited to Hand Reflexology.
- Easy ways to remember Hand Reflexology reflex points.
- Multiple approaches to delivering Hand Reflexology.

**About the Presenter:**

David Wayte has been a Reflexologist since 2000, is a fully qualified teacher and now runs Jubilee College, one of the UK's largest Reflexology schools. He was the first Reflexologist to become a member of the Royal Society of Medicine and he sits on the Reflexology board of the UK's regulator for Complementary Medicine.

David teaches internationally and is passionate about helping Reflexologists develop new skills.

**David's Hand Reflexology story:** David recalls that when he was taught hand Reflexology, his teacher said "I don't think this works, but it's on the syllabus, so I have to teach it" .....not a great way to introduce hand Reflexology to a class! For quite a few years, because of this introduction, David too didn't think it worked, until he started teaching himself. One of his students asked if she could have an extra tutorial, and she wanted to practice her hand Reflexology skills on David. She reclined David in his treatment chair and commenced the treatment. Before David knew it, he was crying his eyes out!!! Something massive had shifted in an emotional way and it was being released via this

treatment. To quote David: "The only description I can give was that it was like being ministered to by an Angel".

As you can guess, David now believes that Hand Reflexology not only works, but is such a wonderful and powerful tool that it should be part of every Reflexologists repertoire.
